Dear Property Owner:

In order to provide uninterrupted electric service, it will be necessary to have on file a signed statement from all property owners who wish to have service put in their names when a renter moves. Please list all the service location numbers on the following lines, sign, and return this form to our office. You will also need to be sure we have inactive papers in your name on file at the office so any of the services listed can be automatically switched to your name should a renter move out without your knowledge.

Service Location Number:

1. _____
2. _____
3. _____
4. _____

If the above option is not acceptable, it will be your responsibility, as owner, to contact our office when you wish to have service left on and put into your name. If the service is disconnected an \$80.00 reconnect fee will be charge upon reconnection.

In the event that you sell your property, please contact our office so we can make the necessary changes.
